SUMMARY

AIML Engineering student specializing in Generative AI, multi-agent frameworks, and full-stack development. Experienced in building scalable LLM applications, RAG pipelines, and intelligent systems using tools like LangGraph, FastAPI, and React to automate complex analytical workflows and solve real-world problems.

EDUCATION

BTech – Computer Science and Engineering (AIML)	2023–2027
Vishwakarma Institute Of Information Technology, Pune	CGPA: 9.55

INTERNSHIPS

PMO AI/ML Intern	Dec 2025 – Present
<i>Emerson</i>	

- Architected a multi-agent AI system using LangGraph, deploying SQL and Extraction agents alongside a self-correcting retry loop to streamline and automate complex PMO data workflows.
- Upgraded the analytics pipeline by replacing static prompt stores with dynamic query routing, unlocking scalable, real-time capabilities for resource forecasting and S-Curve generation.

SKILLS

Programming	Java, C++, Python, JavaScript, SQL
GenAI & ML	LangGraph, LangChain, NumPy, Pandas, Scikit-Learn
Web Dev	React, FastAPI, HTML, CSS, UI/UX
Tools	Git, GitHub

PROJECTS

Business Billing and Management	11/2025
<i>SimpleSight Solutions Pvt. Ltd.</i>	

- Full-stack React + Supabase system for invoice creation, receipts, role-based access, ledger updates, analytics, and PostgreSQL storage.

Image Processor	10/2025
Streamlit-based Python app offering OCR, background removal, and AI-powered image summarization. GitHub: FrozenFalcon-Byte/Image-Processor	

- Streamlit-based Python app offering OCR, background removal, and AI-powered image summarization. GitHub: FrozenFalcon-Byte/Image-Processor

Nature Scenes Classifier	08/2025
TensorFlow/Keras CNN trained on augmented datasets to classify Coast, Desert, Forest, Glacier, and Mountain scenes. Deployed via Streamlit.	

- TensorFlow/Keras CNN trained on augmented datasets to classify Coast, Desert, Forest, Glacier, and Mountain scenes. Deployed via Streamlit.

EXTRA-CURRICULAR

Class Representative (CR)

- Representing CSE-AIML batch, coordinating communication, managing academic updates, and supporting departmental events.

Tech Lead – AIMSS Club, VIIT

- Leading technical initiatives, mentoring juniors, conducting workshops, and developing AI/ML-focused club projects.

COURSES

CISCO CCNAv7: Introduction to Networks
ML and Deep Learning in Python and R
C++ Programming (MAANG)
